CSA0306 – MOBILE COMPUTING FOR MODE APP DEVELOPMENT

Name: Vignesh.S(192421168)

1. Prepare UI design for the below scenario

   SCENARIO : This mobile app can help people get parking slots easily even when they travel beyond their normal routes. Design UI with following requirements.

   User login – Registration – Count of Empty Parking – Free Parking Slots Display – Booking Parking slots

ParkEasy

this parking booking seat is a smart
and convenient app that allows users to
check seat availability in parks and
reserve their spot in advance. it reduce
waiting time and helps ensure a
comfortable and organized outdoor
experience .
